

The Welsh Lectures in Physics 2021

University of Toronto

Professor Subir Sachdev

Herchel Smith Professor of Physics, Harvard University

Public Talk

**Thursday May 6,
6 PM - 7:30 PM**

A simple model of many-particle entanglement: how it describes black holes and superconductors

Colloquium

**Friday May 7,
10 AM - 11:30 AM**

Fermi surfaces large and small: how electrons avoid each other and conduct electricity

Professor Juan Collar

Enrico Fermi Institute, Kavli Institute for Cosmological Physics, University of Chicago

Public Talk

**Thursday May 6,
7:30 PM - 9 PM**

Nuclear recoils: little things that go bump in the dark

Colloquium

**Friday May 7,
11:30 AM - 1 PM**

Particle physics in the sub-keV regime

Zoom Webinar ID: 994 7494 9134, Passcode: 774855

Department of Physics, University of Toronto
