

2022 H. L. Welsh Lectures in Physics

Location: Koffler House KP108 [569 Spadina Crescent]

<https://welsh.physics.utoronto.ca>

Professor Nigel Goldenfeld

University of California, San Diego

Colloquium

Wednesday, May 4, 2:00-3:30 PM

"The Life and Death of Turbulence"

Public Talk

Thursday, May 5, 1:45-3:00 PM

"What can theoretical physics tell us about the evolution of early life?"

Professor Jeff Dahn

Dalhousie University

Public Talk

Thursday, May 5, 3:30-4:45 PM

"The Role of Electrical Energy Storage in the War on Climate Change"

Colloquium

Friday, May 6, 2:00-3:30 PM

"Modern Lithium-ion Batteries: More than one million miles and a century of life."
